DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-14, 18, 19, 21 and 22, drawn to "Method for managing merchandise owned by a consumer", classified in class 705, subclass 22.
 - II. Claims 15, 20 and 23, drawn to "Method for distributing and selling merchandise to a customer", classified in class 705, subclass 26.
 - III. Claims 16 and 17, drawn to "Method for providing information about merchandise to a consumer", classified in class 705, subclass 27.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, inventions I and III do not require collecting unnecessary merchandise and delivering other piece of merchandise to the consumer as require by invention II. Further, inventions I and II do not require collecting document on each merchandise based on a reference between documents in the network as require by invention III. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and III, and because they have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
